What You Learn

This certification program is built on three learning cornerstones:

Learn how to decode yourself and others.

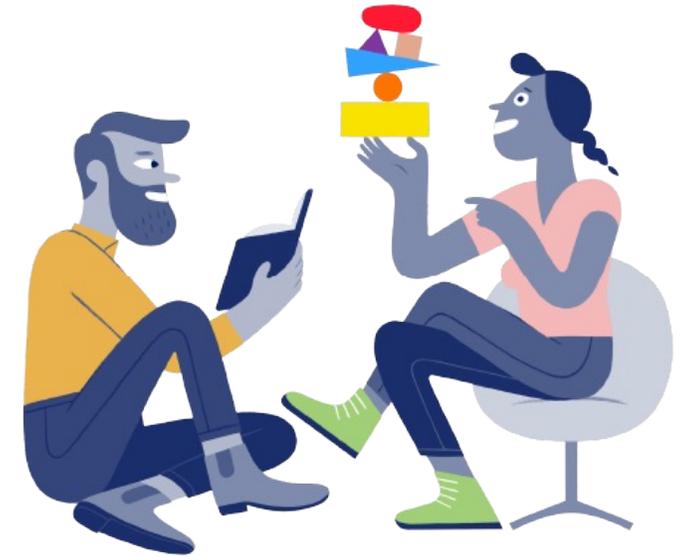

Imagine so sharply observing communication styles and behaviors that you instantly recognize people's stress signals and can chart interactions to take a positive course. You apply these skills when training clients, one on one or in groups, across all fields.

Knowledge to problem-solve and problem-prevent

Through certification, you can count on becoming a PCM theory and skills expert equipped with plenty of real-life examples to swiftly translate knowledge into solutions. While helping clients troubleshoot problems, you also train them to identify patterns and prevent failures for themselves.

Positive behaviors, productive practices

By achieving supreme self-awareness as a PCM trainer, you adapt your behaviors to connect to the best in everyone. These positive interactions provide a model that clients apply to their own relationships at work, at home, or out in the world.

I believe PCM is a very valuable asset for every person and every company as they can understand how to build a healthy and effective workplace where people are motivated and developed.”
